**Subject:** Teflon on Dual Disc Valves

**ECOWATER®**  
S Y S T E M S

Your Water. Perfected.

Last October we communicated that in an effort to eliminate PFAS from our products, we were removing Teflon from the inlet and outlet disks on the dual disc valves. With our focus on ensuring the best product enhancements, we are performing additional evaluations of this change. During this evaluation we are moving back to the traditional components with Teflon. Please know, our goal is still to eliminate Teflon to continually stay ahead of regulations related to PFAS, but we will be shipping products with Teflon while this evaluation is completed.

Teflon

No Teflon

Teflon service part kit part numbers are as follows:

Part Number	Teflon Disk Description
7116739	KIT DISC EWS FILTER
7218688	REPL DISC KIT EWS
7368475	INLET DISC 7390236 10PK
7368483	OUTLET DISC 7390244 10PK
7390236	INLET DISC ASM
7390244	OUTLET DISC ASM
7223196	OUTLET DISC ASM, MACH.
