Declaration of Allergen Content of Activated Carbon Product

We, Jacobi Carbons Group, hereby declare that all activated carbon products supplied are not manufactured from any known allergen, nor does it contain additives known to cause allergic reactions, illness or anaphylactic symptoms. Furthermore, the manufacturing process used to produce activated carbon effectively removes any known allergenic substances from the raw material used. This involves processing the material at temperatures in excess of 900°C.

Signed for and on behalf of Jacobi Carbons Group

John Lever
Global Products Director
